

Bee Heroic and Tahoe Douglas FPD present west shore's first:

Geoengineering: Forest, Health, and Economic Impacts Symposium

March 19/22, 2019

Geoengineering Impacts:

Please join Bee Heroic and Tahoe Douglas Fire Protection District - Station 23 - for this important presentation series.

Geoengineering - deliberate large scale intervention of Earth's natural systems - is currently executed on a daily basis throughout the US and globe. From science, to military, to commercial applications, these projects are having detrimental impacts on the region's forest and ecologic health as well as biologic, and human health.

This two-day symposium (Tuesday/Friday, March 19/22, 2019) will cover the issues and impacts related to geoengineering and what communities can do to protect their properties, forests, health and economies. Guest presenters include

physicists, physicians, researchers, engineers and more. Topics include but are not limited to: GE impacts on forests/fires/ecology, health, and economies, with information on how to alleviate impacts.

When: March **19** and **22**, 2019

10 am - 2 pm

Where: 193 Elks Point Rd (Station 23)
Zephyr Cove
NV 89448

Other: Snacks will be available.
